

## EMH Golden Power

### Sport - och tävlings foder

### Feed supplement for horses

The feed is based on high-quality, expanded (popped) grain and milk thistle oil, making it an ideal source of energy. As a complex mixture of high-quality additives, including essential amino acids, this muesli makes an exceptional power mix for your high-performance competition horse. The high levels of vitamin E and magnesium not only effectively support muscle development but also the rapid regeneration of muscles. Stamina, willingness to perform, and performance are supported and sustainably maintained with the exclusive composition and exceptional palatability of this feed. A sophisticated feed with reduced protein, increased energy and vitamins levels - Golden Power is the optimal ration for horses when the demands for performance are high. It is suitable as an addition to other feed and, if necessary, as a complete feed.

The benefits at a glance:

- highly digestible due to expanded (popped) grain
- with essential amino acids
- high vitamin E and magnesium levels to support the muscle development
- faster muscle regeneration
- increased energy levels for lasting performance
- tasty and balanced
- nutrient levels are ideally matched to the performance
