

## Green Power grain free

### Sport - och tävlings foder

### Feed supplement for horses

- ✓ reduced starch and sugar
- ✓ with increased energy and protein content
- ✓ the high proportion of structure increases chewing intensity and salivation, which promotes a balanced gastrointestinal environment
- ✓ can support muscle building
- ✓ rich in polyunsaturated omega-3 and omega-6 fatty acids

An optimal protein and energy ratio as well as the high vitamin content ensure motivation and effective muscle building. Due to the high proportion of structure, the feed intake is extended, the chewing activity is stimulated and the feed is thus well insalivated. The contained milk thistle oil and the rice bran have a stimulating effect on the metabolism and provide energy without burdening the intestinal flora and insulin balance. Sunflower seeds complete the recipe with structurally bound vegetable oils, lecithin and secondary plant substances. Green Power is therefore particularly rich in physiologically valuable, polyunsaturated omega-3 and omega-6 fatty acids. The food is balanced with vitamins, minerals and trace elements in such a way that the daily ration is completely balanced even with small amounts of feed.

### Foderanvisning:

Moderate work: 200 g per 100 kg body weight per day  
Intensive work: 300-400 g per 100 kg body weight per day

For broodmares that need to be fed grain-free / reduced in starch and sugar:

- Pregnant mares from the 9th month 200 g per 100 kg body weight/day, up to the 11th month of pregnancy increase to 400 g per 100 kg body weight/day
  - In the 9th and 10th month of pregnancy we recommend supplementing Horse Vital Plus with 80-100 g per day for horses and with 50-80 g per day for ponies to cover the vitamin D requirement
  - 1st - 3rd month of lactation: 400 g - 500 g per 100 kg body weight/day.
- If the dosage is lower, adding a mineral feed is recommended.

**Sammansättning:** 29,6 % Luserngrönmjöl, 14,4 % linfrömjöl, 14,4 % Solrosfrömjöl, 9,7 % Riskorn, 8,3 % Lusern torkat (hö), 6,0 % solroskärnor, 6,0 % mariatistelolja, 4,1 % Kalciumkarbonat, 3,0 % sockerbetor-massa pellets, 1,9 % betmelass, 1,9 % Johannesbröd styckat

smältbart protein (vRp): 140,4 g/kg  
prececal digestible protein (pcvRp): 134,5 g/kg  
smältbar energi foder (MJ DE): 11,5 MJ DE/kg  
Metabolizable energy (MJ ME): 10,0 MJ ME/kg

**Analysgaranti:** 17,00 % Råprotein, 11,00 % Råfett, 17,00 % Växttråd, 10,00 % Råaska, 2,00 % Kalcium, 0,55 % Fosfor, 0,05 % Natrium, 2,70 % Stärkelse, 4,50 % Socker, 0,30 % Magnesium

**Fodertillsatser per kilo:** 25.000,00 I.E. Vitamin A (3a672a) <sup>NA</sup>, 2.500,00 I.E. Vitamin
